## Technical Skills

---

**Programming:** C, C++, Java, Python

**Frameworks & Tools:** MERN Stack Development, Git, GitHub

**Languages:** English, Bengali, Hindi

**Other Skills:** AI/ML

## Experience

---

### Intern

May 2026 – Present

*India Space Lab*

*India*

- Worked on AI and software development related projects.
- Collaborated with team members on technical tasks and development.

### Infosys Springboard Internship

Dec 2025 – Mar 2026

*Infosys Springboard*

*India*

- Worked on technical learning modules and project-based tasks.
- Improved programming and development skills through practical assignments.

### Product Management Intern

Aug 2025 – Oct 2025

*IIT Guwahati*

*India*

- Contributed to product management and project coordination activities.
- Worked on planning, documentation, and team collaboration tasks.

## Selected Projects

---

### Weather Forecasting App

- Developed an application to predict and display weather conditions.
- Used API integration for real-time forecasting.

### Obstacle Management Robot

- Built a robot capable of detecting and avoiding obstacles.
- Worked on sensor integration and movement control.

### Jarvis - Personal AI Assistant

- Created an AI assistant capable of performing voice-based tasks.
- Implemented automation and command execution features.
